Atrocities Committed

To The AMARILLO DAILY NEWS:

Alarming reports now come to us about our American soldiers fighting in South Viet Nam. It seems that U.S. authorities are suppressing shocking evidence of atrocities committed against U.S. military personnel and intelligence officers captured in battle.

CIA Director John McCone is supporting the policy of not making these facts a moral issue. It has long been the standing policy of the CIA never to reveal details of how or when their agents die.

It is alarming when secret casualty reports of the Defense Department and CIA have shown that U.S. servicemen have been found dead after having been tortured and shot from behind.

Reliable military sources with access to individual personnel files of both agencies say a number of atrocities are as shocking as those committed by the Chinese and North Koreans Communists during the Korean War.

I say to the American people — what is wrong with the American Government that it allows this to happen to our boys?
